

Tomoka Christian has great summer group options, everything from indepth studies to lighter social times, either at Tomoka or in homes. It's never too late to connect in a group! Small groups allow us to grow deeper in the Word and with one another!

### Coming this fall ...

Pray for One is a unified Prayer that unleashes an exponential movement of God's love. Praying God's expressed will into your life will bring transformation to you and to every One that encounters God through you. See how a simple prayer can position individuals, families, and churches to impact eternity by effectively sharing God's love One person at a time.

*"Life changing ... a must for our church ... needs to be a church-wide experience."* Thoughts from Tomoka group leaders who did this study as a group.
